Shower Enclosure

Monika Black Deep3

More detailed information on page 90.

DEEP LINE

New

Uncompromising black design shower enclosures.
Black color does not reflect and absorbs absolutely all frequency light. Comprehensive and mysterious, emphasizing and challenging. DEEP LINE series design shower enclosures create absolute contrast - at the same time harmoniously fitting into the interior. Get inspired and be original!

Grollo
SHOWER ENCLOSURES

Actuality

Personalized

solutions for your bathroom.

- We offer personalized designs for your shower cabins, shower doors and walls. Individual solutions for both large and small bathrooms, sauna rooms, attic rooms as well as complex wall niches.
- More than 27 years experience in custom made products, from simple orders to complex non standard glass solutions.
- Realized thousands of projects in private sector and huge commercial projects for hotels and living flat houses in all Europe.
- Close connection with the customer, direct feedback and support provided to the customers.

Shower Wall adjustment profile

It is much easier to install Shower Walls or shower enclosures on uneven walls with an adjustable profile. Adjustment profile allows to compensate the wall irregularity up to 10mm. It is possible to increase the standard shower wall width to 20mm with a help of adjustable profile. Now shower products with an adjustable profile can be mounted on the edge of the ceramic tiles itself.

87€
Adjustable profile length – 2 m.

Additional side shower wall Speciale20

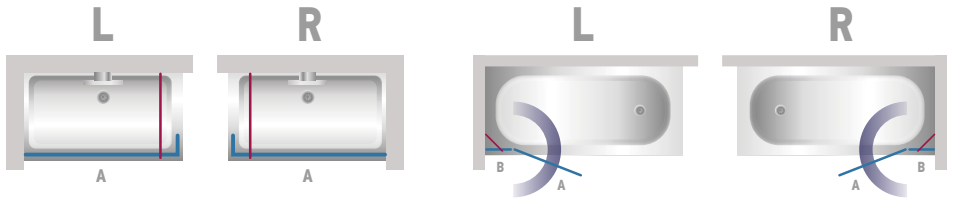

Model	Height (mm)	Adjustment (mm)
SPEC20_MIN	2000	150-600
SPEC20_MAX	2000	600-1200

An additional wall SPECIALE20 can be made and assembled with any shower door model or shower corner.

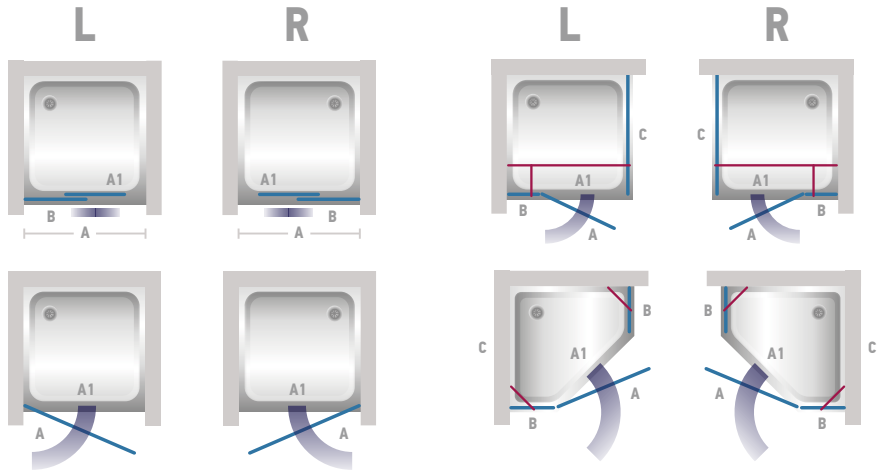

Location of shower products

When ordering, indicate the location of your chosen shower and the direction of the door opening!
When choosing one of the WALK IN shower walls or bath wall, indicate on which bathroom wall
the shower will be mounted, on the left (L) or on the right (R)! From a front view outside the shower or bath!

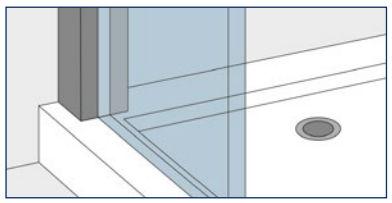

For shower doors and shower enclosures, the position of the L-R is determined by looking at the shower door from the front, outside the shower, based on the door opening direction! The door opens (or slides) to the left - left (L) direction. The door opens (or slides) to the right - right (R) direction!

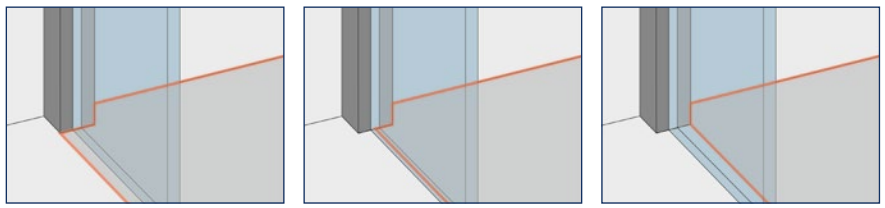

Installation positions

The shower enclosures can be installed on the shower tray (standard dimensions) or directly on the floor.

There are three different options of installation the product on the floor –

External dimensions of shower enclosure is on the edge of the tile line

Center of shower enclosure is on the edge of the tile line

Internal dimensions of shower enclosure is on the edge of the tile line

Symbols

In case our standard assortment does not offer your desired solution, it is possible to make nonstandard shower enclosures within a time period of 15 days.

Doors are equipped with lift hinges. Once opened, the doors lift up and do not scratch against the floor. Extra comfort using the shower enclosure provided.

Doors are equipped with self-fixing hinges. The doors always close in a standard position and do not stay opened.

Can be adjusted accordingly for the doors to close both directions – to the right and to the left.

Stroke and heat resistant, tempered glass that is five times tougher than ordinary same thickness glass.

Glass thickness 6mm or 8 mm.

Coating types – Chromed (CH, standard), Stainless steel (SN), Painted (RAL) and Gold (AU).

Water resistance level of shower enclosure, door or wall.

STANDARD knob can be replaced to BOHLE, KVADRO or KARIN handle.

The hinges are flush-fitted with the glass pane – a flat surface facilitates the process of keeping the shower enclosure clean.

GROLLO GLASS SHIELD nano coating.

Shower wall adjustment profile allows to compensate the wall irregularity up to 10mm, helps to increase the standard shower width up to 20mm.
